of which he was the nominal head. After testifying that the firm was organized in 1888 and that he had done most of the buying of grain he declined to state who had charge of the finances of the firm. Referee Green held that in view of the fact that Eppler had been indicted by the State court, and the court is advised of the fact, he would sustain the witness in refusing to answer.

Eppler said he could not tell why a balance sheet of the firm's affairs had not been made since 1888. He was able, however, to ascertain that \$100,000 whether the firm had made or lost money in any given year. He could not say how much he had drawn on personal checks, but thought it was over \$170,000. Regarding speculations in his name, which he said were intended for the benefit of the firm, he testified that since 1897 he had lost \$183,000, the losses since September last aggregated \$57,000. He borrowed \$30,000 on his life insurance policy of \$50,000 and gave his wife \$5000 of that; he borrowed \$7000 from Rosenfeld & Co., \$5000 from Wells Fargo Bank and \$7000 from his wife. Eppler explained that his son Joe had drawn about \$1000 a month over and above his salary, which had been charged to him to the amount of between \$90,000 and \$70,000.

Damask 40c.

Do not read this carelessly and think it concerns someone else. Do you need table damask? Of course if you wish something of a finer quality this damask will not interest you so much as Hale's nicer grades. But if you want a neat, serviceable table cloth perhaps for your beach cottage, or perhaps for every day use in your city home then you'll find this a lucky bargain indeed.

The man who said it to us said it was all linen but we don't believe him, although it does certainly resemble pure linen. At any rate it is damask that could not be beat anywhere below 60c without loss. It comes 88 inches wide in pretty floral patterns. We hope there's enough of them to last through today's selling.

Napkins Getting Shabby?

Didn't you say only last week 'I'll have to go to Hale's for some new napkins?' Of course you did. Now you'll have a chance to buy a beautiful \$1.50 napkin at \$1.00 per dozen. They come in 1/2 size, and of course the quality is rich and soft.

As we supply nearly all the big hotels with table linen we carry the largest stock of linens in the Southwest, and most folks say that our prices are always lowest.

Bathing Suits—So Pretty, So Inexpensive.

Yes indeed, we have more bathing suits than any other store in Los Angeles. Such a statement would be merely bluster if we were not well able to back it up with facts. We'll go further, our bathing suits are newer, different, and prettier than what you will see commonly. We are able to supply you with a becoming suit for less than you expect to pay. Everybody can be delightfully pleased here.

Pretty styles at \$1.50, \$1.75, \$2.25, \$2.50, \$3.00, \$3.50, \$4.00, \$4.50, \$5.00, \$6.00, and \$12.50. Water proof bathing caps in gray or black at 10c, others at 25c and 35c. Rubber submarine caps 50c. Bathing shoes in white or black at 25c and 40c.

We don't close Saturday afternoon, but on the contrary offer special values during the popular trading hours Saturday afternoon. Our bathing suits and rubber shoes are made to order and the combined half holidays and vacations of any other institution.

Banishment of Miners' Agitators

(BY THE ASSOCIATED PRESS—P.M.)

DENVER, Aug. 3.—At the meeting of the Citizens' Alliance, called for the purpose of inducing the action of the Citizens' Protective League of Idaho Springs, Colo., in expelling from that city fourteen members of the Miners' Union, the day after the blowing up of the Sun and Moon mine recently, resolutions were adopted condemning the course of the alliance of Idaho Springs and the law officers of Clear Creek county, "which, while involving a technical deviation from the letter of the law, became, nevertheless, necessary owing to the exigencies of the case."

The preamble of the resolutions charge that within the organization of the Western Federation of Miners "there exists a strict, unbroken inner circle, ready and pledged to commit personal violence, murder and the destruction of property at the behest and mandate of their leaders, who, in turn, are a law unto themselves and recognize no rights of others, and by unlawful means seek to control some of the most important interests of the State."

The resolutions conclude with an appeal to the citizens in authority to arrest and prosecute all persons who unlawfully carry deadly weapons concealed about their persons.

The meeting was held behind closed doors at the Chamber of Commerce, admission being by card, and the representatives of the press were excluded. It was stated, however, by officials of the alliance that something over 700 were in attendance. It was generally understood when the call was issued that action would be taken to oust from the city certain agitators who have been conspicuous in the recent labor troubles in Denver.

The local typographical union, in resolutions adopted at yesterday's meeting, expressed the intention of its members to oppose the Citizens' Alliance to the utmost. The resolutions of the printers state that the attitude of the alliance is a "gross violation of the liberty of the people and is an incentive to lawlessness. The union condemns such steps as outrageous and anarchistic in the extreme, concluding as follows:

"Resolved, that we warn members of the Denver Citizens' Alliance against taking such action because of the consequences that will follow, and further urge any member of organized labor assaulted in such a manner to protect himself to the fullest extent."

GENERAL STRIKE AND ANARCHY.

(BY THE ASSOCIATED PRESS—P.M.)

MADRID, Aug. 3.—[By Atlantic Cable.] The threatened general strike commenced today in several centers, including Barcelona, Merida, Cadix, Ronda and Alcoy. The general unrest is largely attributed to the bad harvest, but the immediate motive for the strike is to reinforce the demand for the release of numerous workmen who have been thrown into prison for offenses during recent strikes. The leaders of the movement are exhorting the members of the trades unions not to return to work until all the imprisoned men have been released.

The government has taken stringent measures to cope with the disturbances. The military forces and the civil guards have been reinforced wherever necessary, and the troops have been confined to the barracks. The instigators of the strike are threatened with severe penalties. The residence of the Mayor and a number of private houses at Alcala, province of Cadix, have been attacked by the strikers, who exchanged shots with the gendarmes.

The officers of the league said that ultimately 34,000 or the total number of men affiliated with the Building Trades Council, would be idle. Work stopped on nearly all the building in course of erection in the city. Trouble is anticipated if the contractors bring in non-union men.

There was no change in the lockout up to midnight. Both sides to the controversy admitted at night that first estimates of the number of men out were exaggerated. The Builders' League secretary stated that 15,000 men were locked out, while the secretary of

It was wash-day in Pasadena yesterday. There are still a few families in the city who have their laundry work done at home. One of the houses where the old-fashioned washboard and tub are still in vogue is No. 105 South Menlo avenue, where Miss Jeannette Bower, one of the contestants, lives.

The Bower family is not financially able to hire a laundress or to send its soiled clothes to a steam laundry. So the weekly task of renovating the family attire falls on the young housekeeper. Miss Jeannette Bower, who is now a senior in high school, recently after a long illness, leaving the 16-year-old girl to look after the three younger children.

After holding first place in the scholarship score for nearly a week, Miss Bower dropped down to third place Sunday morning. Monday morning she rose at daylight and before 9 o'clock had the family washing on the clothes line to dry, and then set forth to school. It is not surprising that a girl of such pluck should be successful in her undertakings. Her day's labor in the scholarship field netted her 50.27 points, a total with a total score of 102.75 points.

Miss Pedley, who was first in Sunday and Monday yesterday, although she dropped back to second place, still placed her gain for the day was 48.78 points, which anyone will concede is a very good day's work.

OTHER LUCKY ONES.
Others who made handsome gains yesterday were Florence Darch, 38.76 points, advancing her from seventh to sixth place; Clara Templeton, 37.94 points, advancing her from ninth to eighth place; Hazel Merle Ball, 36.54 points, advancing her from twenty-third to twenty-second place; Stella Callender, 32.71 points, advancing her from twenty-fifth to twenty-fourth place; C. Hix Thornburg, 12.82 points, advancing her from thirty-first to thirty-second place; John M. Overholzer, 4.21 points, advancing her from forty-second to forty-first place.

THE CORRECTION OF AN ERROR IN ELIZABETH DEHMLOW'S SCORE makes it less than it was. On Monday morning and her position twenty-third instead of twenty-first place.

A charge of burglary was entered against Fryburg, as he had pried off a lock to enter the building when he took the camera.

Fireflies of the Tropics.

"In the tropics," says G. R. O'Reilly, the naturalist, "the fireflies may be made to serve many purposes. For instance, they supply light to read by. One night when storm bound in the forest-covered mountains of Pavia, in Eastern Venezuela, my companion complained of the monotony of having nothing to do."

"How joyful it would be," he said, "if we had a lamp and some books."

"Why I've got 'Don Quixote' in the sack," said I, "and I'll soon have a light."

"I jumped from my hammock, caught a firefly, and soon, with 'Don Quixote' open, was reading aloud in such darkness that none of us could see the faces of the others."

"I had only one firefly, yet it was quite sufficient, because I used it properly. I held the little creature between finger and thumb, close to the page, and as I passed it along the lines of print, word after word became successively visible and passed from my lips as freely as if I had had the whole page plainly before me, instead of a little circle of light, illuminating word after word as it moved steadily along the paper."

"On another occasion I came across a snake in the dark and resolved to catch him. Accordingly I decided to mark the spot and return immediately with a lantern. To mark the spot,

however, in such darkness was difficult. "Fireflies were passing quite near me. I was smoking a cigarette, and had some fine copper wire in my pocket. I waved the glowing point of the cigarette about my head with one hand, and held my hat in the other. Soon a firefly sailed near me, attracted by the light. I knocked it down with the hat and secured it."

"In the same manner I got two others, tied them together with the bit of copper wire, hung them on a branch over the pathway close to where the snake was, and then hurried home for a lantern."

"When I returned my firefly beacon was still there, glowing as brightly as ever. My lantern soon revealed a large snake just finishing his meal. I captured him without difficulty. Then, thanking the fireflies for their services, I turned them loose."

"Another night, wishing to shoot a large white owl when it was too dark to see the sights of the gun, a new use for fireflies flashed across my mind. Taking two of the insects I killed them, and pulling off the luminous part of substance, I placed the phosphorescent substance on the forepart of the gun barrel."

"By this means I brought down the owl without difficulty, and the light on the sights being just sufficient to aim by, and yet not so strong as to dazzle the eyes."—New York Sun.

Forget Something.

A story is told that a lady traveling in the same railway compartment with Lord Rosebery on leaving it dropped her umbrella on the footboard. He picked it up and restored it to the fair owner, who received it without a word of thanks and was claimed. "You have forgotten something, madam."

Have been treated by Dr. Schiffman for years. I have tried all his different methods and can say unhesitatingly no dentist or physician has ever operated with such success or skill. In extracting my teeth he did it without any pain to me. It is a great pleasure to me to recommend him and his method of treatment.

Prop. Van Nuys Hotel and Hotel Potter, Santa Barbara.

Ten years ago a reputable D. D. S. of Va. told me that a certain molar tooth could not be satisfactorily saved and that it would probably not be of service for one year. It has not only served me for ten years, as Dr. Schiffman saved and crowned it, and comparatively speaking without pain. I sing his praise.

L. M. ANDREWS, Pastor M. E. Church, South. Cor. 6th and Mateo Streets.

On account of some unfortunate experience I had in the extraction of my teeth I became a great coward in this respect. Today Dr. Schiffman extracted one of my very refractory teeth without causing me one particle of pain.

Dr. Schiffman extracted a tooth for me absolutely without pain. His advertising phrase, "Didn't Hurt a Bit," is literally true.

R. D. HOLABIRD, Pacific Electrical Works. Under Nadeau, First St.

EVERAL years ago Dr. Schiffman did some crown and bridge work for me which has proved entirely satisfactory. The work was done painlessly and with great skill. It gives me great pleasure to recommend him.

IRVING R. SMITH, L. A. Times.

Dr. Schiffman has put in almost an entire upper bridge for me. The bridge is perfect in every respect, and I can use it as well as my natural teeth. The work was promptly and painlessly done.

Dr. Schiffman pulled two of my wisdom teeth, and it didn't hurt a bit; on the contrary, the sensation was pleasant. GUY L. HARRISON, Vice-Pres. Herd's Pub Co.

It is with pleasure that I state that I have had several teeth filled by Dr. Schiffman, and that he has cured the nerve and saved the root of one of my teeth, and put on a porcelain crown, which cannot be distinguished from a natural tooth, all of which was done without pain.

Dr. Schiffman has put in a most satisfactory piece of bridge work for me and I cheerfully recommend him to anyone in need of dentistry.

MRS. C. T. W. SCHRAMM, 1083 North Main St. County and City Criminal Photographers.

About a year ago I had a bad gold bridge put in by Dr. Schiffman. The work was absolutely perfect, and has proved entirely satisfactory, and I cannot say too much in praise of the doctor.

Dr. Schiffman extracted my teeth and replaced same by bridge work. He also treated and filled two teeth, which I thought were too far gone to save, and put on a porcelain crown, which cannot be distinguished from a natural tooth, all of which was done painlessly and is perfectly satisfactory.

It is to certify that Dr. Schiffman did some crown work for me seven years ago and the work is as good today as it was when I had it done.

I have had fourteen teeth extracted positively without pain by Dr. Schiffman.

Have just had a large back tooth extracted by Dr. Schiffman; had been hesitating, but it was only a little and gave no pain.

MUST MOVE SOON. People are catching with interest the growth of the Merchants' National Bank of Los Angeles since Horace W. Heman became its president, and consequently it may be natural for persistent rumors to be spread intimating that the bank is about to move to new quarters. Its present location is no longer com-

It is going right along, and it is possible for us to enlarge our quarters at the present time. Our business has increased two years more to run. When we move, of course, we shall go down town further, but where I cannot tell. It is very difficult to know where to go. As to the corner of Fourth and Spring streets, in the Angelus Hotel, nobody knows where to go. The negotiations now under way between Mr. Holmes and certain parties, I do not know. I am sure, however, that the Merchants' National will be able to move to a new place."

INDIANA FEAR. Reports are now coming from the pea-producing counties of Indiana, and it is stated that about 50,000 to 600,000 cases have been put out. This is about 90 per cent. of a crop.

The growers have had an increase of about 10 cents a bushel for the past few weeks, and the market for the crop is somewhat higher than last year.

Last week we reported a very antisocial act of violence against the growers to this time it is impossible to say just what the Wisconsin will be, but it is probable that there will be for several weeks.

small growers of Indiana complain that the market for their product is very high priced; the average price of other years being about 30 cents per bushel. The farmers, however, are not inclined to pick the peas and to sell them in small lots to the grocer, when they can sell the entire crop guaranteed with a repack to the canners at fairly good prices.—*Modern Grower.*

MURDEROUSLY ASSAULTED BY THREE HIGHWAYMEN.

SAN BERNARDINO MAN AND HIS SON ALMOST MURDERED.

After Being Beaten Until Unconscious, the Body of One Is Placed Across Railroad Track—Their Assaults Captured—House Wrecked a Bridge.

SAN BERNARDINO, Aug. 3.—John Paine and Vicente Paine were arrested at Los Angeles yesterday morning, charged with a brutal assault upon O. Bovee and his son, Edwin, whom they attacked without provocation Saturday night near the Southern Pacific's Lytle Creek bridge, and, after knocking them insensible, threw the elder man over an embankment and lay the form of the son across the motor track.

For nearly half an hour the men were unconscious. The elder Bovee is in the more serious condition, his face being laid open from the cheek bone to the eye. Robbery is thought to have prompted the attack.

Paine had just been released from the County Jail after serving a ninety-day sentence for murdering assault, and Bovee was recently acquitted of a charge of highway robbery, and a young fellow named Butierrez having held up a man in the heart of the town in broad daylight and robbing him of a considerable sum of money. Butierrez was convicted, and sentenced to twelve years in San Quentin. Both Paine and Bovee have long police records.

CRASHED THROUGH A BRIDGE.

A two-story house being moved from the north part of town plunged through the Warm Creek bridge today, completely demolishing the structure and closing the bridge to travel. One of the workmen was caught under the house, and had a narrow escape from being crushed to death. The house was a costly building.

The report of the County Treasurer for the month of July, which was filed with the Board of Supervisors shows receipts for the past four weeks amounting to \$104,440; expenditures, \$11,781, leaving a balance on hand of \$92,659.

REDLANDS.

BAD SYSTEM AT FOLSOM.

REDLANDS, Aug. 3.—Maj. F. C. Prescott has returned from the North, where he was summoned after the escape of the convicts from the Folsom state prison. He is chairman of the Red-Over Assembly Committee on State Prisons. Maj. Prescott condemns the conditions existing at Folsom, but does not throw all the blame of the recent outbreak upon the present officials. He states that it would cost \$200,000 to make the prison a complete institution with up to date equipment and safeguards for the caring of the desperate men confined there. The most glaring defect is the absence of a wall about the prison.

REDLANDS BREVIETTES.

The boys of Company G are busy packing their camp equipments preparatory to starting for the State camp at Coronado on Thursday. Tomorrow morning Quartermaster Carl Musgrove, and Privates Tuttle, Humphrey and Haidridge, will go with the accountants and establish the camp before the remainder of the company arrives. Yesterday a number of the boys enjoyed a watermelon-eating contest at the armory, but none were so equally divided that it was difficult to decide who was winner.

Mrs. Henry Rogers and her daughter, Gladys, returned this morning from an automobile trip to Los Angeles and Santa Monica. They were present while in Los Angeles at the reunion in honor of the eighty-second birthday of Mr. Rogers' father, Louis Rogers, a native of Nevada, France, and a resident of this city for a year and a half, died last evening. The funeral will be held tomorrow morning from his late residence and will be private. Father Fitzgerald will conduct the services. Interment will be at Hillside cemetery.

SANTA ANA.

ENORMOUS CROP OF BEANS.

SANTA ANA, Aug. 3.—What promise to be the largest and best bean crop of the county is rapidly maturing on the San Joaquin ranch. An area of about 5000 and 6000 acres has been planted, and unless unexpected and long-continued hot weather sets in, this will give a yield of from 1000 to 1200 pounds to the acre, making a total crop of about 75,000 sacks. Three-quarters of the acreage is in lima beans and most of the remainder in black-eye beans, the latter variety bearing heavier crops and selling at about a cent less per pound. The crop is considerably larger than that of last year, when the acreage was only slightly over 4000 and the yield per acre was not so great as this season. The bulk of this year's crop has been contracted for by local buyers for the J. K. Amby Company, lima commanding 21-4 cents and black-eyes 21-4 cents. Harvesting will begin early in September.

VALLIY RIFLES.

Margaret B. Boudin of Orange, a recent arrival from St. Paul, Minn., died yesterday. The funeral will be held tomorrow afternoon at 2 o'clock from the residence northeast of Orange.

W. A. Christie, formerly with the California Camera Association, was here today inspecting the local fruit crop. Mr. Christie quotes 4 1/2 to 4 3/4 cents per pound for dried apricots in this region.

During the month of August there will be no services in the First Presbyterian and United Presbyterian churches in the absence of the pastors. Rev. McLean W. Davis of the First Church will go East to bring his wife and family to Santa Ana, and Rev. M. M. Kilpatrick of the United Presbyterian Church will spend the month in a camping trip to the San Bernardino Mountains.

The funeral of Mrs. Cara K. Bell, wife of J. Howard Bell, who died Saturday, has been postponed pending the arrival of her brother, C. C. Cline, of North Dakota.

Topping beets in the Newlands district began today and the first crop will be shipped tomorrow. During the rush of the season 300 tons per day will be sent out and of this amount more than half will be sent by the three largest growers of the region, Caspar Horchard, W. T. Newland and P. A. Isenor.

David W. Frazier of Tustin and Mrs. Anna May McDowell of Santa Ana were married Saturday evening.

T. O. Morse, Mort Hubbard started this morning for a two weeks' trip and deer hunt to De Lux, San Diego county.

RIVERSIDE.

OILING MILES OF STREETS.

RIVERSIDE, Aug. 3.—Much street oiling is being done in Riverside this summer. In a few days the Trust Company will commence the oiling of eight miles of streets in Arlington Heights, which includes about all of the residence streets in that part of the valley. The street superintendent is now engaged in oiling Arlington avenue and Central avenue. He will take up West Eighth street next and give it a coat of oil, and will then continue on streets where the property owners have guaranteed a part of the expense. The city has agreed to oil all streets where the property owners will pay one-third of the expense, one-third for each side and one-third for the city. It is estimated that the expense does not exceed two and one-half cents a running foot for the abutting property owners.

That's the morning call of Chanticleer. It's a welcome cry to a well man. But to a man whose sleep comes to him he is only an unrefreshing stupor; who wakes with burning eyes, throbbing head, and a bad taste in his mouth, it means only a new day's misery.

In such a physical condition health is most surely and swiftly restored by the use of Doctor Pierce's Golden Medical Discovery. It cures diseases of the stomach and organs of digestion and nutrition, and it cures through the stomach diseases of liver, lungs, kidneys, etc., which have their origin in a diseased condition of the stomach and other organs of digestion and nutrition. It increases the activity of the blood-making glands, and every organ is benefited by the resulting increase of rich, pure blood.

"Golden Medical Discovery" contains no alcohol and is entirely free from opium, cocaine and other narcotics.

"Your Golden Medical Discovery and Dr. R. C. Atcham's Remedy have been of great benefit to me," writes Prof. Pleasant A. Oliver, of Vicksburg, Miss. "Before I used the above mentioned remedies my sleep was not sound, and I was in a constant state of misery. I now feel like a new man. Any one in need of medical treatment for nasal catarrh could do no better than take treatment of Dr. R. C. Atcham. I know his medicines are all good."

SANTA PAULA.

PLUNGED OVER A GRADE.

SANTA PAULA, Aug. 3.—Yesterday afternoon a vehicle containing Mr. and Mrs. Hudson of Saticoy, Miss Hudson of Los Angeles, Mr. Hasler of Torrey and a little child of Mr. and Mrs. Hudson was overturned while descending the grade near the Ferndale ranch, and the occupants precipitated over an embankment. Hasler sustained a badly fractured back; Mr. Hudson was cut and bruised, and his nose probably broken. The rest of the party escaped with bruises. The injured were brought into Santa Paula, and taken to the Cottage Hotel, where their injuries were attended to.

HOME OF HUNGRY HAY.

Tale of the Disreputable Tactics of the Cigarettes' Union in the City of Syracuse.

Richard Brothers, a cigar manufacturer of Syracuse, N. Y., the home and "stomping ground" of Chief Boycotter Hay, who recently threatened to seek in Los Angeles, to "feather his own nest," issues a scorching arraignment of Cigarettes' Union, No. 6, of that city. Mr. Brothers, who is a union man, says that he is running a union shop and paying the union scale of wages, but that this did not suit a large firm in the city that has entire control of Cigarettes' Union, No. 6, and in sheer self-defense he was compelled to cut loose from the union on account of the influence of the firm in question, which did not pay the union scale and didn't want anybody else to do so. He asserts that not a shop in Syracuse, though all belong to the union, is paying the union scale.

"Little I knew when I went into this business that it was run by prostitutes and murderers, banded together to deprive an honest man from making a livelihood or entering in said business in competition with criminals. The manufacturers and cigarmakers belong to the same union, so you see they have the business cinched. They work harder to mislead honest labor than their trade. Get rid of this gang; fire them out of the trades assembly or they will ruin you."

A Burred Secret.

Dr. Philippp, the editor and publisher of a Russian scientific review, died suddenly a few days ago from an accident in his laboratory.

The day before his death he had sent a letter to the editor of an important Moscow daily paper stating that he had for years been engaged in trying to discover some substance or power which should make war totally impossible, and had succeeded in finding a substance by which it was possible to control the working of an explosion at a distance of many thousands of miles.

The editor on the receipt of this letter wrote to the inventor, the scientist, intending to try to obtain some further particulars from him, out of his horror he found him lying dead on the floor.—(London Express.)

HARD ON THE BACK

Los Angeles Public Learning the Cause

Some kidneys are hard on the back—Nine times out of ten backache simply means sick Kidneys—Kidneys are filters of the blood—if they become clogged or unable to do their work—Poisons are forced back into the system—That means backache—lame back—diabetes—Bright's disease—But there's a cure for Sick Kidneys—

Doan's Kidney Pills

Ask Los Angeles people—they know—They have been cured—hundreds of them—After years of suffering—made well and strong—No more bad backs—no more headaches—No more urinary troubles—Here's one Los Angeles man's experience:

A. T. Tovrea, a well known resident of East Fifth Street, living at No. 218, says: "I have had kidney troubles off and on for twenty years, the attacks sometimes making me perfectly helpless. One of the leading physicians offered to cure me for \$50. I paid him \$30 in advance and took his treatment for four months, following his instructions to the letter, but at the end of that time I believe I was worse than when I began. Shortly after that I happened to meet a Minnesota man who had been cured of a stubborn case of kidney trouble by the use of Doan's Kidney Pills. He spoke of them so highly that I went to Doan's drug store and got a box. I had finished three boxes when the backache entirely disappeared and all the other symptoms of kidney troubles. Today I am well and strong and it is a pleasure to recommend these pills."

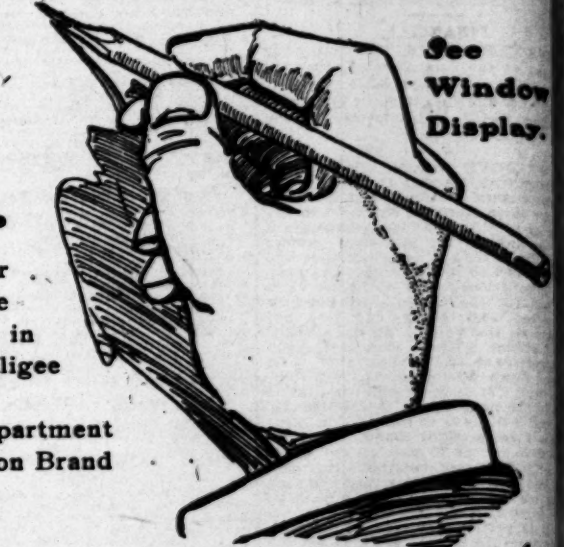

Doan's Kidney Pills are for sale at all drug stores. 50 cents a box—Foster-McIlhenny Co., Buffalo, N. Y.

PASADENA THE SETTING OF PRETTY ROMANCE.

NEW YORK MAN TO WED A SOCIETY LEADER.

Engagement of Mrs. E. G. Jennings to F. H. Howland Announced—Tribulations of Various Lawbreakers—Plans for New Grammar School.

PASADENA, Office of The Times, No. 10 South Raymond avenue, Aug. 4.—Pasadena is the setting for the third act of an interesting little drama, and one of her most charming young widows is the leading lady in the pretty romance. Mrs. Estelle G. Jennings of No. 577 Orange Grove avenue is to wed F. H. Howland of New York City.

Mr. Howland was said to have been a student of a misogynist in social circles in New York and claimed himself as a confirmed bachelor, but overconfidence or extraordinary charm of manner has led to the downfall of his theories on matrimony, and he is fully ready to admit his mistake. It was Mrs. Jennings said to a Times reporter last night: "He is entirely to blame. We did not intend to announce our engagement until our return East, but he could not keep that smile from his lips and some of his friends in Los Angeles made him 'fess up.' We shall not be married until early in the spring and expect to spend our winters in Pasadena."

Mr. Howland and Mrs. Jennings met in Chicago about six months ago and then did not see each other again until they happened to come out on the same train three weeks ago, and the delightful ride overlaid so often proves sufficient time for "Gen. Cupid" to win victory over even the confirmed bachelor. Mr. Howland is out here on business for the United States Mortgage and Trust Company of New York in connection with the Politecnic High school bond issue in Los Angeles.

Mrs. Jennings is the mother of John G. Howland, a well known Pasadena automobile works, a hard working man, who proved quite a favorite at Hotel Green last season and whom society had engaged for at least two different times. Mr. Lovell died when John was very young and in 1932, while at the World's Fair, Mrs. Lovell met her second husband, George F. Jennings, one of two sons inheriting the income of an immense fortune. Mrs. and Mr. Jennings spent their winters in Pasadena and during his sojourn here Mr. Jennings put considerable capital in real estate investments in Los Angeles, being ninety acres of magnificent oak lands lying just east of the Pasadena Country Club. The place is called Oakwood and is a beautiful estate.

Upon her return to Pasadena, the slightly place will be improved along the line of the original plan. Mr. Jennings died at the residence, Oakwood Grove avenue February 19, 1932.

Mrs. Jennings is a splendid horsewoman and is fond of riding. Last winter she kept a stable of nine horses, and spends much of her time in driving over the mountains and riding in her automobile. Her mother, who will not come as a surprise to those who knew her cordiality and winning smile.
